

A WHIRLWIND ON OFFENSE

Goddard Seminary Defeated Troop A Team, 66 to 0

SOLDIERS POWERLESS TO STOP THE ATTACK

School Boys Showed Remarkable Gridiron Versatility and Dexterity

Bewildered by a maze of forward passing, fake kicks and by old-fashioned mass playing, a section of Uncle Sam's standing army rested on its heels at the campus yesterday afternoon while Goddard's embryo football champions were piling up a score of 66-10 touchdowns and six goals. Troop A from Ft. Ethan Allen may know more about military tactics than the average fist fighter, but there are 11 of them whose knowledge of football's finer points is right on the borderland of nil. All of which isn't whispered among friends for the purpose of discrediting Goddard's 1915 team, but the schoolboys surprised themselves and some few onlookers by playing 50 per cent better than they did on the occasion of their recent meeting with the Vermont Aggies.

To those of the spectators yesterday who saw Coach Kinney's Colts in their certain ruse a week ago, their work yesterday was a revelation. Goddard has a team of stars in the making, although they do not play individually, and it needs only a strong opposing eleven to bring out the best qualities that must remain latent just so long as the seminary aggregation is pitted against an unskilled combination like the grenadiers who came to town Monday.

Six times the schoolboys worked the forward pass successfully. Six times six they outclassed the troopers in mass playing and in going down with the ball they showed remarkable progress. Scarcely had the whistle sounded in the opening period than the advance began, an advance that later developed into a steady march up and down the field. Before three minutes of play had expired Faulker, who by the way is one of the sturdiest little backs that ever donned a Goddard gunnysack, was off like a flash for the first trip over the goal line. Connor's crafty toe was shortly to send the ball across the bar and a 7 to 0 score was chalked down. Connor's versatility in carrying the ball and booting it, too, was often demonstrated. Faulker's scoring was followed by touchdowns in which Loudon, Willey and Faulker again figured in that opening period. It was 27 to 0 when the gong sounded for the first time.

Right End Goslant got away with a pretty swing around end at the beginning of the second period and Willey's touchdown was accomplished in much the same way that Goslant went over. Connor also scored and the end of the half saw Goddard leading by the likely margin of 47. Inertia on the part of the seminary, rather than any redoubling of effort by the Ethan Allens was responsible for the low ebb of scoring in the third period, when Loudon's journey over the line brought the total up to 53. The shades of night were fast settling over the scene when the fourth period opened, but Faulker and Willey saw to it that the majority was pushed up to a limit of 66.

Not once did the soldiers make their downs and their efforts at passing, punting and kicking off were oftentimes ludicrous. Frequently after the first period, Goddard kicked off to the visitors, but their runners-up rarely made gains at all commensurate with their edge on the schoolboys in weight. In the last period Quarterback Deegan essayed four successive passes that failed of reaching their destination. In the third period Lick received a kick in the jaw and had to be removed from the field. He revived sufficiently to permit his return for a few moments before the end came. Deegan had a good line of joshing to land out. Shirley, who played a tackle position on the soldier team, and West-

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

If Cross, Feverish or Bilious, Give "California Syrup of Figs"

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given. If your little one is out of sorts, half sick, isn't resting, eating and acting naturally—look, mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach ache, diarrhea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moving out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach, and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."—Adv.

SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism depends on an acid which flows in the blood, affecting the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive processes, and remains there because the liver, kidneys and skin are too torpid to carry it off.

Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly, with purifying effect, on the blood, and through the blood on the liver, kidneys and skin, which it stimulates, and at the same time it improves the digestion.

Get Hood's Sarsaparilla to-day. Sold by all druggists.—Adv.

rack at right guard were the only members of the reservation contingent who had anything that interested the crowd. The summary:

FOOTBALL NOTES

Here is hoping that troop A is stronger than its football team.

Connor cleverly intercepted a forward pass in the second period.

Hackett should be given more opportunities to handle the ball. He is a nifty youngster.

Some of the A troopers are credited with having grandsons about to enter the service of Uncle Sam.

Salvo and Johnson have speed and show signs aplenty of developing.

Twilight football is no better than evening baseball. If the seminary is depending on the public to support in part its football, the public should have a right to insist that the games begin when they are advertised.

Willey is playing in better form than ever before.

There seems to be a dearth of prep school games on the seminary schedule.

Why not stack up against Vermont? Middlebury, or Norwich?

Goddard's 11 men were outweighed 10 pounds to a man until Soule dropped into the line toward the end. The husky recruit performed well.

Fumbling was altogether a conspicuous feature of the army's playing. It was conspicuously absent on the other side.

Goddard has a powerful line factor in McIntosh.

RELICS OF LOST RACE FOUND.

Discovered by Accident in Mound Near Moorestown, N. J.

Philadelphia, Oct. 5.—Relics of an ancient and heretofore unknown race of Indians have been unearthed near Moorestown, N. J., by an expedition headed by George Harrison, jr., a director of the University of Pennsylvania museum.

The discoveries were made by accident in a mound on the bank of a tributary of the Rancocas river and the relics indicate an Indian race far antedating the Lenape, or Delaware Indians, who roamed over this vicinity at the time of the advent of the first white man.

A large fireplace was uncovered and near it many blades, hammers, arrowheads and various stone utensils of a very different type from anything previously found. The belief is that the spot was a ceremonial meeting place of a race of Indians long departed.

WILSON AT WORLD'S SERIES.

President Wires for Seats at the Second Game in Philadelphia.

Washington, Oct. 5.—Pres. Wilson wired for seats yesterday at the second game of the world's series between the Phillies and Red Sox in Philadelphia next Saturday.

GAME FIGHT BY SPAULDING

After Sector Had Been Injured, Gave Them the Victory, 6 to 2

MONTPELIER SEM. WAS THE LOSER

High School Boys Rallied in the Shadow of Their Goal

Fighting gamely almost on their own goal line and twice preventing their opponents from scoring when a touchdown seemed inevitable and which would mean defeat, Spaulding high defeated the Montpelier seminary eleven yesterday afternoon on the latter's field by a 6 to 2 score in a slow and uninteresting contest. Long gains by Sector and Smith, with occasional help from Tomas, enabled the Barre eleven to march some 50 yards for a touchdown in the first five minutes of play, but after that, although able to gain quite successfully, they could not cross.

Sector, the snappy little quarterback of the Spaulding eleven, always susceptible to injury, was painfully hurt in the first quarter after he had scored the only touchdown, and he was forced to retire, which weakened the visitors greatly. Smith directed the team during the remainder of the game and played the position well, but the backfield was weakened, as his place was taken by two second string men, Bailey and Winkim. Neither team was able to get in a position where a touchdown was possible after the first few minutes until the final quarter, when the seminary team, with E. Pike carrying the ball, forced its way to the 10-yard line. Four downs were not enough to enable the hill team to gain the coveted 10 yards and the touchdown which would have tied the score and perhaps given them a victory, and the ball went to Spaulding.

Spaulding tried to rush the ball out of danger, but the team was unable to gain and on the fourth down Smith fell back to kick, standing on his own goal line. He punted but the pignick struck the struggling line of players and rebounded, Meffugo falling on the ball. Referee Peach so interpreted the rules that Spaulding was again given the ball on a first down, although a howl of protest went up from players and spectators, both coaches joining in a lengthy argument.

Spaulding again tried to carry the ball instead of punting out of danger, and this time relinquished the ball on their five-yard line. Then it was that the Barre eleven showed a fighting spirit seldom seen in a school team, for in four rushes, two made by Pike and two by Granai, but four yards were made and Spaulding obtained the ball on downs. Smith started to make an end run but was tackled in his tracks, a safety resulting, giving the seminary their two points. The game ended with the ball in seminary's possession in mid-field.

The game was almost devoid of interest except in the final period, both teams relying on line plays to gain, although Spaulding tried many forward passes which failed to go through. The seminary was woefully weak in tackling, Hatch being the worst offender. Time and again he failed to get down after his man and his work was worse than mediocre. Ramsdell played a fine game for the losers.

The Game.

Seminary kicked off, Smith receiving and running the ball back 15 yards. Smith, Sector and Tomas carried the ball on line plays to the five-yard line and Sector squeezed through right tackle for the touchdown, three first downs being made in the march down the field. Smith made the longest single gain, 12 yards. The goal was not kicked.

Seminary again kicked off, Sector running the ball back only a short distance. Smith gained three and Sector five yards and in the second play the latter was injured so that he had to be retired. It was feared at first that a rib was broken in his left side. Bailey went in for Smith, who went to quarter. Spaulding seemed to feel lost without Sector, for they were outplayed the rest of the half and would have been scored upon had not Pike fumbled when on the 20-yard line.

The ball was carried first by one team and then the other during the third quarter until finally the seminary team took a brace and commenced a determined march toward the goal line. E. Pike and Granai made long gains through the line and the end of the period found the ball in seminary's possession on the seven-yard line. Pike gained a couple of yards and was thrown for a loss on the next try. Granai failed to gain and then Pike was held, the ball going to Spaulding on the two-yard line. Smith gained three yards and a forward pass was not completed. The blocked kick followed and Smith gained 15 yards after Spaulding was awarded the ball. Spaulding was penalized a minute later to the extent of 15 yards for holding. Meffugo gained eight yards but Smith was held without gain and seminary took the ball on the five-yard mark. The visitors refused to yield, however, and the best the seminary could do was to obtain two points.

The summary:

Spaulding.	Seminary.
Gordon, le	re, Marx
I. Tomas	
Mortimer, lt	rt, Ramsdell
Cole, lg	rg, Davis
Nichols	
Chandler, rt	c, Arisley
Kingston, rg	lg, Lyndes

GREAT LOAN TAKEN UP

No More Underwriters' Subscriptions to Be Received

ROCKEFELLER TAKES \$10,000,000

List Contains Other Well-Known Names—Britain Is Pleased

New York, Oct. 5.—An important announcement, indicating the success of the Anglo-French loan was made yesterday by J. P. Morgan & Co. It was to the effect that no subscriptions to the underwriting would be received after 10 a. m. to-day.

The statement of J. P. Morgan & Co. follows:

"In behalf of the managers of the underwriting syndicate of the Anglo-French loan, J. P. Morgan & Co. announce that no subscription to the underwriting will be received after ten o'clock (Tuesday) morning."

John D. Rockefeller was reported yesterday to have subscribed to the \$500,000,000 Anglo-French bond issue. It was said his subscription approximated \$10,000,000. At the Standard Oil company's office here a member of the Rockefeller staff declined to confirm, deny or comment on the report. Mr. Rockefeller is at his home at Pocantico hills. Overtures looking toward Mr. Rockefeller's participation were made through J. D. Rockefeller, jr., about two weeks ago by J. P. Morgan. The National City bank, whose president, Frank A. Vanderlip, has taken a leading part in the loan negotiations, is reported to have strong Rockefeller affiliations, and this gave color to the report that Mr. Rockefeller had subscribed to the loan. There is small likelihood that Mr. Rockefeller's participation will ever be officially announced unless he sees fit to announce it.

The syndicate managers have decided not to make public the list of large individual subscribers on the ground that the underwriters' terms, or 90%, thus obtaining an interest yield of nearly six per cent. In order to obtain the underwriters' terms, however, the smaller investors have been required to buy at 98 with the promise of a rebate of 1%. This arrangement likewise applies to the underwriters.

Subscriptions for the loan continue to pour in. Among those seeking to subscribe were many British and French citizens residing abroad. These investors sought the bonds because the rate of interest is a full one per cent higher than that on the previous internal loans. In every case, however, their subscriptions were rejected yesterday. The foreign orders came by cable and from the New York financial agents of London and Paris houses with wealthy clients.

Closing of the underwriting books to-day was interpreted as meaning that the entire amount of the bond issue had been subscribed. The syndicate managers have indicated that the small subscribers will be considered first, should there be an over-subscription, and that the larger allotments would be reduced, if necessary, to accommodate the small investors. Virtually all the small investors, it was said, were permitted to subscribe at the underwriters' terms, or 90%, thus obtaining an interest yield of nearly six per cent. In order to obtain the underwriters' terms, however, the smaller investors have been required to buy at 98 with the promise of a rebate of 1%. This arrangement likewise applies to the underwriters.

DUMBA'S FAREWELL CALL ON BERNSTORFF

Austrian Ex-Ambassador Expected to Sell To-day—Wife Was Also Paying Visits

New York, Oct. 5.—Dr. Constantine Dumba, the recalled Austro-Hungarian ambassador, who expected to sell to-day the Vienna Ambassador, paid a farewell visit yesterday to Count von Bernstorff, the German ambassador, and made other calls. The ambassador's wife also devoted much of the day to visiting friends.

COTTON GOES UP ON THE CROP REPORT

Smallest Production Since 1909 Causes Quick Advance of a Dollar a Bale and Then Up

New York, Oct. 5.—Immediately after the announcement of the government's crop report, indicating 10,950,000 bales, the smallest since 1909, the cotton market assumed considerable activity and strength. Futures advanced more than \$1 per bale in a few minutes and all prices were soon up from 58 to 60 points over Saturday's closing. The government's figures were considerably under previous private estimates and caused a large buying movement.

December contracts sold up to 12.60, January to 12.77, and March to 13.55 within half an hour after the publication of the condition figures, or more than \$1 per bale above the closing figures of Saturday and into new high ground for the season. On the advance toward the end of last month, January contracts sold at 12.75, but have suffered a substantial reaction, having touched 11.85 on last Friday. The advance yesterday carried the market \$4.60 a bale above that level.

NEW YORK SUBWAY WILE COST \$330,000,000

When Finished the Dual System Will Consist of 620 Miles of Single Track Railroad.

New York, Oct. 5.—More than \$100,000,000 already has been expended in the construction of the new dual subway system here and contracts aggregating \$178,000,000 have thus far been awarded for subway and elevated work, according to a report made public yesterday by the public service commission. The expenditures include sums paid by the Interborough Rapid Transit company and the Brooklyn Transit company, as well as by the city. On Sept. 1, 1914, more than 100,000 men were employed in the subway work. When finished the dual system will consist of 620 miles of single track railroad, including 296 miles in the old subway and elevated line. The total cost of the system when equipped is estimated at \$330,000,000.

GRAND TRUNK ONLY LINE.

Kimball Interested in No Other Legislation.

Concord, N. H., Oct. 5.—George H. Steele, secretary of the New Hampshire Association of Liquor Dealers who gets some \$6,000 of the western fund for his services in promoting the cause of the Boston & Maine against the Grand Trunk, was the principal witness yesterday in the investigation by the public service commission of expenditures by railroads in New Hampshire to influence legislation or public opinion. Mr. Steele appeared voluntarily, and recited his services with apparent frankness. President Benjamin A. Kimball of the Concord & Montreal was cross-examined, bringing out few details, and Counsel Benton for the commission stated that he has had no reply from former President Mellen of the Boston & Maine in response to his request to appear. President Kimball, who was asked to use his influence to get Mr. Mellen to come to this state, said he had thought the matter over since the request was made and had done nothing.

Counsel Benton stated that he had sent to Mr. Mellen asking him to appear, and read into the record the request. He had learned that the message was delivered Saturday evening, but had received no reply.

TO RECOGNIZE CARRANZA

Pan-American Conference Course in Matter Is Assured

NO STATEMENT FOR SOME WEEKS

General Carranza Is Now Practically in Control of Situation

Washington, Oct. 5.—Conferences will be held in Washington this week on affairs in Mexico. Secretary Lansing and the representatives of the powers which compose the Pan-American conference will receive the leaders of the respective Mexican factions in an effort to determine what action shall be taken at the conference meeting on Saturday. Officials conversant with Mexican affairs say privately that the conference will undoubtedly recognize the Carranza government. They point out that Villa exercises only partial control in two states—Sonora and Chihuahua—and that Zapata holds the single state of Morelos. Authentic information in possession of the United States shows that General Carranza is in undisputed control of Mexico City and that he has driven his enemies out of all states except Sonora, Chihuahua and Morelos. Although the conference is expected to deal for Carranza, formal announcement of the fact may be delayed for several weeks, or until all appearance of opposition to his authority has disappeared. Secretary Lansing has made it clear, however, that he is not dealing with elements outside of Mexico or groups not affiliated with the movement that overthrew Huerta. The United States recognizes the triumph of the revolution as a fundamental in the present situation.

State department advisers yesterday showed that not only General Carranza replaced General Nafarrete, his commander at Matamoros, with another man, but that he has also made other changes on the border staff to accomplish a more effective patrol against raiding.

TAMPERS WITH U. S. MAIL TO SHANGHAI

Pouches Opened at Hong Kong, Registered Letters and Packages Being Removed.

Manila, Oct. 5.—The insular government has informed Washington that sealed mail pouches in transit to the American postoffice at Shanghai have been tampered with and that registered letters and packages are missing. It is presumed the mail bags were opened at Hong Kong.

Pretensive Farming.

Up to about a score of years ago, there were but two important types of farming pursued in this country—namely, extensive and intensive. About the time the automobile was still an undeveloped fancy, a third type of farming was evolved. It is properly called pretensive, or pretentious farming. To practice this line of agriculture, all one needs is approximately \$1,000,000 and a slight banking for country life. On the pretensive farm, accounting systems and farm balances are held in ill repute. The net income is secured like a book agent. To produce and consume eggs that cost 50 cents a piece, butter at \$1 per pound, sanitary milk at 30 cents the quart, are the aims of these mismanaged farms. The custom is to be all but killing devices with red danger signs. It is time the "Beverly" signal was placed upon the prospective farm of the rich man—George Harold Davy in the Countryman Magazine for October.

GRANITEVILLE.

Miss Rose Belonger will be at her home in Graniteville, showing goods from Miss L. E. Townsend's military parade Wednesday, Thursday and Friday of this week.—Adv.

PORTER CHARLTON ILL AS TRIAL APPROCHES

The American is Soon to Answer for Killing His Wife.

Como, Italy, Oct. 5.—Porter Charlton is under a physician's care on the eve of his trial for the "honey-moon murder" of his wife, Mary Scott Charlton, in their villa on the shore of Lake Como. The news that his chief counsel Cattapan, had suddenly withdrawn from the case, was a severe shock to the young American. His nervous condition is such that his physician has not permitted his remaining lawyer, Cattapan, to visit his cell.

The courtroom was put in readiness yesterday. Several extra benches were drawn in, facing the iron cage in which Charlton, like some wild animal, will sit throughout the trial, guarded by carabinieri.

There will be a big throng of spectators eager to hear the dramatic recital of the "passion murder" story. Legal experts give Charlton two chances out of three for acquittal on the ground that he was insane when he killed his wife with a mallet. Both Prosecutor Mellini and Charlton's attorneys believe the trial will last about five days.

TREAT CATARRH BY NATURE'S METHOD

Every Breath of Hyomel Cures Healed Infection Medicated Air in the Infected Membrane

Nearly everyone who has catarrh knows how foolish it is to try and cure it with sprays, lotions, and the like. Temporary relief may be given, but a cure seldom comes. Until recently your physician would probably have said the only way to help catarrh would be to have a change of climate; but now with a simple preparation called Hyomel you can carry a health-giving climate in your vest pocket and by breathing it a few minutes four times a day successfully treat yourself.

The complete Hyomel outfit is inexpensive and consists of an inhaler that can be carried in the vest pocket, and the more they sell, the more convinced are they that they are perfectly safe in guaranteeing to refund the money if Hyomel does not relieve.

To Whom It May Concern:

Nearly every manufacturer appropriates a certain amount of money for advertising purposes—some spend their money to advertise through the medium of newspapers, magazines, billboards and signs in electric cars, but we desire to spend our advertising appropriation right in the localities where our coffees are sold. In other words, we believe in co-operation—you help us and we help you—and just in proportion to the amount of the goods we sell in your town.

Carrying out this principle of co-operation, we will place in each one-pound package of the following brands of coffee, one cash coupon: Beverly (value 2c), Concord (value 2c), Continental (value 1c), and Signal (value 1c), redeemable by us on presentation with an endorsement on each coupon of the name of your organization and authorized official to whom we are to make payment. Redemption of these coupons expires May 1, 1916.

If the workers in your organization who have the burden and responsibility of raising funds once start in with this plan of "you help us and we help you," we feel that you will be greatly surprised at the results obtained through your co-operation.

We suggest that you let the coupons accumulate and mail them to us monthly, and we will make prompt remittance upon receipt of same.

Of course, the more of our coffees that are bought by the members of your organization, the larger will be the checks sent by us each month. Any effort your organization or outside friends may put forth to increase the sale of our coffee in your town, will accrue just as much to the benefit of your society. The above coffees are sold by Eastern Bros., Barre, Vt.

We solicit your co-operation and remain, Yours respectfully,
HOWARD W. SPURGEON COFFEE CO.
Baltimore—National Shipment Bank.
Boston, Mass.—Adv.
